

Cabinet Refacing Hands-On Training Application

Cabinet Refacing is one of the fastest growing segments of the remodeling industry. It offers you a business opportunity either as your main line of work, or as a potentially lucrative supplement to your existing remodeling business. Refacing jobs can be done quickly and give you year-round work potential.

Keystone Wood Specialties offers training for Cabinet Refacing at our facility in Lancaster Pennsylvania. This is a one-day, hands-on workshop where you will receive one-on-one instruction. Trainees learn proper measuring for components, surface preparation, application of veneer, installation of components, business practices and much more.

To apply, simply fill out the attached application (next page), and fax or mail it to Keystone.

PLEASE READ: We are offering training to our wholesale customers and other qualified persons in the remodeling industry who wish to improve or develop additional skills in meeting the needs of their customers. Our class is not designed for homeowners or hobbyists. If you are a homeowner, please consult your local contractor. Thank you for your understanding.

Cabinet Refacing Hands-On Training Application

One of the fastest growing fields in the remodeling industry is Cabinet Refacing. It offers a comparatively quick turn around and participation in an important segment of the woodworking market. Keystone offers a one-day, hands-on training seminar at our facility in Lancaster, Pennsylvania.

Objectives:

- Learn about the benefits of Cabinet Refacing
- Learn refacing techniques via hands-on instruction
- Become familiar with Cabinet Refacing as a business
- Answer questions

Cost (please check one):

- Training Seminar only — FREE for a limited time.
- Training Seminar with Refacing Sales Kit — Call for Pricing
The sales kit includes a sturdy carrying case, veneer samples, sample doors, drawer fronts, mouldings and other products, literature, order forms and more.
