

Cabinet Refacing Training

Refacing offers an affordable alternative to a complete kitchen remodel while still giving your customer the kitchen of their dreams. With refacing, you have many options, from small but powerful upgrades, to completely changing the look, functionality and feel of a kitchen—all while keeping the existing cabinets and layout. Our custom sizes, finishes and styles ensure you can meet your customer's highest expectations.

Keystone Wood Specialties offers **Cabinet Refacing Training** at our facility in Lancaster, Pennsylvania. This is a one-day, hands-on seminar where you will receive one-on-one instruction. Trainees learn proper measuring for components, surface preparation, application of veneer, installation of components, business practices and much more.

To register for Cabinet Refacing Training, complete the Application Form on the next page and fax or email it to Keystone Wood Specialties.

Please Note: *This class is only available to our wholesale customers and other qualified persons in the remodeling industry. If you are a homeowner or hobbyist, please consult your local contractor. Thank you for understanding.*
